

You will receive a message or phone call from me if you signed up to participate in our Adopt a Highway program. We are deploying on selected days with a two-day notice to the Caltrans Maintenance Department Adopt a Highway squadron. We meet at the Old Spaghetti Factory parking lot at 1100. There we will go over the plan of how we will accomplish our task, assemble groups, and hand out the gear required. However, I must add that you will not be allowed to participate until you study the Adopt a Highway "Get Serious About Safety" DVD. I have supplied copies to key persons in the following areas:

High Desert: Dan Rowland

Riverside: Daryl Brock

San Bernardino: Frank Campbell & myself

You will need to rsvp with me. I will also send another email or phone call to you to confirm deployment. If it rains, we will not deploy.

Feel free to contact me with any questions.

Thank you,

Mike Willie Williamson

USSVI Bonefish Base

Senior Vice Commander / POC
